

Love diving?

Then the North Queensland Underwater Explorers Club is for you!

Share your passion for diving, snorkelling and exploring some of the country's best dives sites by joining north Queensland's oldest SCUBA dive club.

The North Queensland Underwater Explorers Club has some fantastic dives sites right on our doorstep - the world class *SS Yongala* dive and the World Heritage-listed Great Barrier Reef.

Photo: Ken Garnett

We regularly organise day trips and weekends away to these locations, beautiful Islands in the region like Magnetic and Pelorus Islands, and other sites along the north Queensland coast.

But it's not all about diving, either! We're friendly and welcoming, with a vibrant social events calendar that includes BBQs, movie nights and themed parties. We also look after the marine environment by taking part in *Clean Up Australia* day every year.

Membership costs:

- Diver membership - \$5 per year (plus \$55 to join Australian Underwater Federation)

Membership entitles you to:

- Access all club dives and trips - discounted rates may apply
- Access all club social events
- Access club tanks at cheap rates
- Use the club's compressor on dive trips
- A regular email and webpage updates
- Mentoring by experienced divers for novice divers if required

Interested? Divers, snorkellers and social members are welcome. We meet on the first Tuesday of the month at the Townsville Motor Boat Club at 7:30pm. Feel free to turn up or you can contact us for more information.
